

Excavator Top Roller

High quality Excavator Top Roller can be customized with best price from our factory. If you are interested in our discount Excavator Top Roller. Shengan is one of the manufacturers and suppliers in China. For more information, please contact us, we will give you our quotation asap.

Product Description

As a professional China Excavator Top Roller manufacturers and suppliers, Shengan Mechinery has its own brands and factory. Customized Excavator Top Roller made in China can be bought at low price. We have 630-2500-ton casting equipment, automatic multi-station cold heading machine, CNC machine tool, five sets of 1.5-ton medium frequency furnace for casting steel, medium frequency machine, controlled atmosphere pit furnace, automatic heat-treated mesh belt furnace, high-precision imported mold processing equipment and self-developed CNC boring machine as well as high-end laboratories, which pave a solid foundation for the product quality.

Fujiansheng Shengan Mechinery Development co.,Ltd is a large scale bulldozer and excavator undercarriage parts manufacturer and supplier in China-- excavator top roller. It has been established over 35yeesrs. We have professional heat treatment facilities to provide high quality products, short delivery time and the best service for our customers. Our factory mainly produces track roller,carrier roller,sprocket, front idler, track chain, bucket,swamp track shoe and etc. Our products have been recognized and supported by customers in many countries. We often participate in exhibitions.

Choose us and we will bring you professional products and excellent service

Excavator top roller is made of shell, bronze bushing, collar, seal, lock pin, plug, shaft. It is made by forging, machining, heat treatment, assembly, painting etc. The quality and working life for excavator top roller is depends on the quality of raw steels, the hardness of rail surface, the depth of hardness layer, the quality of seal group etc.

Excavator Top Roller Parameter (Specification)

Model Name	Excavator top roller
Part number	PC200-7
Material	50Mn
Color	Black or Yellow
Surface Hardness	HRC48-55
Application	Crawler Excavator
Warranty time	1000 hour
Technique	Forging&Casting
Usage	Crawler track chain machine
Application	Excavator parts

Excavator Top Roller Details

The excavator top roller, which is also called upper roller or carrier roller, is one part of undercarriage parts for crawler heavy equipment such as excavator, bulldozer. The function is to hold the crawler up, so that the crawler has a certain degree of tension.
